

# Quick Multibunch Review - BESSY-II

S. Khan, T. Knuth

- longitudinal:
  - before installation of Landau cavities  
mode  $\sim 13$ , easily controlled by feedback
  - after installation of Landau cavities  
mode  $\sim 281$  or  $0$ , under certain conditions  
not controllable
- horizontal and vertical:  
resistive wall, damped by chromaticity  $4-5$  or  
by feedback at chromaticity  $\sim 1$
