

Resonant Inelastic X-ray Scattering Workshop

June 29th – July 1st 2009 / ESRF, Grenoble

The morning of the 29th June will be dedicated to a symposium in honour of Prof. Lucio Braicovich.

Refine scientific objectives for Upgrade Programme beamlines UPBL06 (ID16) & UPBL07 (ID8).

Bring together soft and hard x-ray communities using the technique of resonant inelastic x-ray scattering to study electronic and magnetic excitations.

Bring together communities using other complementary techniques like:

- Optical Raman spectroscopy
- Electron Energy Loss spectroscopy
- Inelastic Neutron scattering
- Absorption spectroscopy, etc.

*To be confirmed
